

Experience Aura Reality

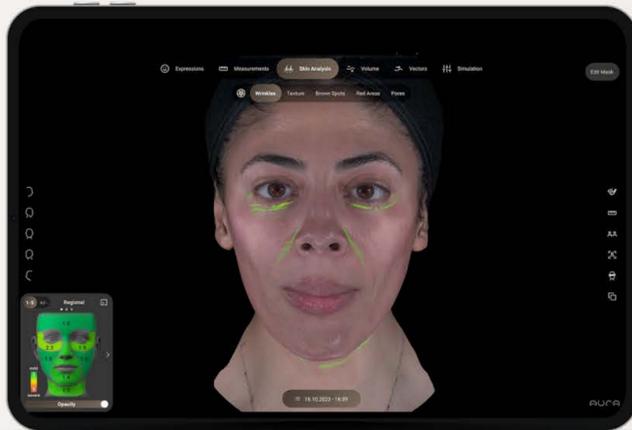

## Say "Go".

That's how fast Aura captures a patient's face and neck in 3D.

Just 0.2 seconds, to be exact.

And in just 30 seconds the intelligent digital twin is ready to view on the Aura app.

Using Aura is simple, elegant, and effortless - by design.

## Face Your Facts.

Aura allows patients to see their skin in a new light.

**Quantified. Objective. Beyond the visible.**

Comprehensive skin and facial structure analysis includes:

- Skin Type
- Wrinkles
- Texture
- Red Areas
- Brown Spots
- Pores
- Before And After Visualization
- Facial Dimensions
- Volumetric And Lifting Changes
- Simulation

Meet Your Digital Twin

## Aura 3D Imaging System.

Made in Switzerland and crafted with precision, Aura delivers instant clarity and unforgettable moments that spark trust, conversation, and connection.

## Powerful First Impressions.

Aura reveals what was previously invisible, a high-resolution digital twin that helps patients understand their own story in a new way.

Whether it's the first consultation or a returning visit, Aura turns every interaction into an opportunity for insight and engagement.

Aura elevates modern practices; technologically, aesthetically, and emotionally.

## Where Aesthetics Meets Intelligence.

**Aura is an experience that gets people talking.**

It opens dialogue, strengthens trust, and elevates your practice's reputation.

**Providers** gain advanced visualisation and a powerful communication platform.

**Patients** gain confidence, clarity, and a deeper sense of partnership.
